

Letters to:

1. **American Linen Supply**  
550 N Church St. 88001  
526-6641
2. **City of Las Cruces - Transportation Department -**
3. **Dona Ana County Maintenance yard -**
4. **Auto Garages in City (?)**
5. **Burn Construction**  
2100 W. Amador Ave. 88005  
526-4421
6. **Wal-Mart** (bought property from Burn construction, they may tell us what they had to do to clean up site, objectively).  
2350 E. Lohman Ave. 88001
7. **Armory**
8. **Shook Tire Company (?)**
9. **Dry Cleaning Operations**  
**One Hour Cleaners,**  
1424 S Solano Dr. 88001  
522-8515
10. **Crawford Airport** (we may need to get info. from City on how to locate these people).
11. **Aircraft Service & Maintenance** (they may have historical knowledge on who operated Crawford, also, who buys chlorinated solvents in town.)  
**- Burrell's Aircraft Maintenance**  
Las Cruces Municipal Airport,  
523-1292  
**-Rio Grande Aeroplane**  
W. of Las Cruces  
524-0705
12. **Chemical Suppliers**  
**- Regal Supply & Chemical Co.**  
1595 W. Amador Ave. (if they were not the suppliers to operators in the past, perhaps they know who was)  
524-8509

9823766

**- Rinchem Co. Inc.**

Rt. 74-511 Hwy 213 824-0164  
824-0164

13. **Las Cruces Transit & Mixing** (mostly cement, sand and gravel operations, but like Burn Co., were located on the plume before they sold to Wal-Mart).  
150 Hermosa Ave. 88001  
526-5647

**Questions:**

- 1 What waste materials do you use for your operation or have you used in the last 40 years of operation?
2. How do you dispose of your waste material? Who are your contractors for disposal?
3. If you are a recent property owner, what actions did you need to perform to either build your facility, or come into federal, state, or local permit compliance? e.g., excavation activities; describe what waste materials you found, who sampled, or if it was sampled, findings, and how it was disposed.
4. How much chlorinated solvents do you use per day/year/ to operate your business?
- 5 Describe your maintenance activities, how waste material is handled and what products have been used at your facility?
- 6 What activities have you observed from any operators that involve the use of PCE?
7. Who do you supply chlorinated solvents to, and who has supplied past operators in the City?
8. How are chlorinated solvents used in or facility? Who is your supplier? If you are a vendor, who do you distribute to?
9. Has your company had to clean-up spills or activities from previous land owners? If remediation is part of your business operation, who have had historical spills that needed remediation?
